FEATURES

- Customized user interface for easy, intuitive control.
- Custom engraved buttons enable intuitive control via 5 hard keys.
- All-in-one touchpanel with built-in control processor delivers full control over the AV and offers room for future expansion.
- Time-based events ensure devices are powered on or off.

- Presentation switcher offers a variety of video input formats and delivers high-resolution video signals from up to five computers or video sources to the projector
- Mirrored output on the presentation switcher allows to connect a computer monitor on the teacher's desk
- RTiQ remote diagnostics automatically reports issues.
